

OUTREACH TO ALUBO MAY 2008

VENUE: Alubo
DATE: 22nd May, 2008
TEAM: Ps. Willie, Ps. Asare, Bro. Ben, Bro. Frank, Bro. Appiah and Bro. Osei Barimah

The team left the CMM premises at 11.30am and arrived at Alubo at 12.30. We grouped ourselves into two. We shared tracts printed in the Twi language without any problem with the people there.

In all nine unbelievers were converted though the place is doing well when it comes to Christianity. The team also encouraged some backsliders to return to their maker. We also had a testimony from a young man called Akwasi Tebi who is a porter. He uses a phoenix bicycle to convey luggage (bags of grains) from one destination to the other in respective of issued instructions. Though he can't read but he is a spiritual person with much devotion to Christ and his church. And this has caused him receive and experience greatness in the Lord and yet, still anticipate with a strong conviction that there are a lot to be done here on earth for the Kingdom of God. The team left the place after the day's activities at 3.00pm to continue the next day.

The next day, Friday 23rd May, 2008, the team interacted with many people at the community. We again won six new souls and encouraged some backsliders to take their facets of armor back and return to the Living God. There was also two instant healings: one woman with a severe stomach pains and another with bodily pains. Glory be to God.

We also met this lady called Fatima who is a Muslim. Born and nurtured under Islamic community. She gave an encouraging testimony about some changes and miracles that has taken place and still occurring in her life when she became converted to Christ. Though she is now born again, she is still in the Islamic community since nobody knows her conversion. She says the husband is

strongly devoted to Islam but that is not so with her. She feels intimidated and deceived by Islam, especially after she found Jesus and His supernatural power manifestation in her life.

She said, she has been praying for the Lord to solve her barrenness for her. She is married for ten years without conceiving. The future prospect of this couple looks promising because she faithfully affirms the ableness of the Lord.

According to her, she intends to use every slight opportunity to pray for her husband always for the Lord to convert and to admonish him concerning the things of Christ. She knows that slowly she will win the husband to Christ. The team encouraged and affirmed her to continue to be steadfast in the faith to bring glory and honor to the Lord and her-self at the appointed time.

Thank God! Everything went on just as planned. Amen!

Samuel Osei Barimah (Reporter)
